# REMOVE BAGGAGE FRICTION FROM THE PASSENGER JOURNEY?

France·Paris-Orly Airport – 2026

## 01 THE CHALLENGE

Getting bags to the airport, queuing at check-in and waiting at the carousel still create stress and wasted time—especially for families, older travellers and business passengers.

## 02 THE SOLUTION

From Paris-Orly, CheckMe by Dirby collects bags at home, hotel or office. Certified agents check them in with Corsair, issue boarding passes and transfer them directly to the aircraft hold.

On arrival, bags are collected from the carousel and delivered to the chosen address. Each item is weighed, sealed, insured and tracked in real time.

## 03 THE RESULT

Up to two hours saved and a hands-free journey from the front door to boarding. Now available in Paris and the inner suburbs, the DGAC-validated service provides a scalable model for future airline and airport partnerships.
