Presentation

The world's leading private airport operator, VINCI Airports operates more than 50 airports in 11 countries in Europe, Asia and the Americas. Thanks to its expertise as a global integrator, VINCI Airports develops, finances, builds and manages airports by providing its investment capacity and its know-how in optimizing operational performance, modernizing infrastructures and managing their operations and environmental transition. VINCI Airports is the first airport operator to have committed to a global international environmental strategy in 2016, to achieve the goal of net zero emission across its entire network by 2050.
