HOW CAN AN AIRPORT ACHIEVE AIRPORT CARBON ACCREDITATION LEVEL 5?

France·LYS – 2026

01 THE CHALLENGE

Reaching ACA Level 5 AND integrating full Scope 3 emissions into the decarbonisation strategy.

02 THE SOLUTION

ENV-ISA supported Lyon Exupéry Airport by:
Structuring and consolidating its carbon management framework
Aligning long-term Scope 3 decarbonisation strategy with COP21 objectives
Strengthening governance and reporting systems
Preparing technical documentation for ACA Level 5 audit validation

03 THE RESULT

ACA Level 5 accreditation achieved
Full Scope 3 Mapping
90% reduction in controlled emissions (Scopes 1 & 2)
One of only three French airports at this level
Clear Net Zero Scope 3 trajectory by 2050
