HOW CAN AN AIRPORT REDUCE SECURITY QUEUES IN A SPACE-CONSTRAINED CHECKPOINT?

Malte·MLA – 2026

01 THE CHALLENGE

Upgrading Security in a Space-Constrained Environment

02 THE SOLUTION

A smarter, space-saving upgrade with Smiths Detection:
6 x HI-SCAN 6040 CTiX scanners
6 x Cassioli Fast2Check lanes
Centralised remote screening

03 THE RESULT

The upgraded checkpoint has significantly reduced queuing times
Improved flow at the busiest point in the terminal.
