PROAVIA member use case

INTEGRATE A CB C3 MACHINE IN A SPACE-CONSTRAINED ENVIRONMENT ?

France·EAP – 2026

01 THE CHALLENGE

Integrate a CB C3 within a 14-meter-long checkpoint while improving passenger experience and maintaining maximum system performance.

02 THE SOLUTION

X-Lane by TG Concept: a compact and optimized checkpoint
Reduced checkpoint processing time
No need to remove liquids or laptops (CB C3 technology)
Faster, smoother and more intuitive passenger flow

03 THE RESULT

CAPEX & OPEX rationalization
No building/Infrastructure modification required
A modern, scalable and future-ready checkpoint
