SIMPLIFY THE PASSENGER JOURNEY WITH DATA PROTECTION ?

France·MRS – 2026

01 THE CHALLENGE

Simplify and accelerate the passenger travel process at any checkpoints with an inter-operable solution for any airline and/or airport.

02 THE SOLUTION

Fly'IN solution improves the passenger flow and documentary verification at boarding with an early stage enrolment.
The process is GDPR compliant and anticipates the future Digital Travel Credential an EU Wallet standards for EU citizons.
The software solution is agnostic of any check-in and boarding equipment.

03 THE RESULT

Fly'IN solution has been deployed on multiple touch points (Checkin kisk, Self Bag Drop Off, Boarding e-gate and boarding Pods).
This solution is interoperable with any airport, any airline and any equipment supplier.
